Subject: Application for Machine Learning Engineer Intern Position

Dear Sir/Mam,

I am writing to express my strong interest in the Machine Learning Engineer Intern position at Tower Research as advertised on LinkedIn. I am enthusiastic about joining a dynamic and innovative team, and I believe that my skills and passion for software engineering make me an excellent fit for your organization.

As a passionate software engineer with a background in Computer Science and Artificial Intelligence and Machine Learning, I have gained valuable experience during my academic journey and internship. My skills include designing high-quality, clean, and scalable code. I am committed to adhering to software engineering best practices, including code reviews and unit testing, to ensure code quality and reliability.

During my Web Developer Internship at "Lets Grow More," I had the opportunity to collaborate on software development projects, focusing on delivering high-quality and clean code. I actively participated in the complete software development lifecycle, from gathering requirements to design, testing, and deployment. I conducted code reviews and performed unit testing to enforce best practices, and I gained experience in issue resolution and troubleshooting. My ability to collaborate with cross-functional teams and solve complex problems was further developed during this internship.

I have a track record of contributing to successful software projects, including the development of an e-commerce website using Python, Django, HTML/CSS, and JavaScript. I also worked on a Text Summarization NLP Web App using Python and Flask, applying NLP concepts. Additionally, I created a responsive Grocery Website using HTML, CSS, and JavaScript.

I have a strong technical skill set that includes languages such as CoreJava, Python, SQL, and basic JavaScript, as well as experience with frameworks like Flask and Django. I am proficient with developer tools like Visual Studio, PyCharm, Jupyter, and Google Colab. I hold the Azure AI Fundamentals certification from Microsoft, which demonstrates my commitment to continuous learning and professional development.

I am excited about the opportunity to contribute my skills and knowledge to and to collaborate with stakeholders to identify end-user requirements, manage code deployments, design and create software systems, and continuously improve existing software. I am also dedicated to maintaining high standards of code quality and creating technical documentation to guide future development projects.

Enclosed is my resume, which provides additional details about my education, work experience, certifications, and achievements. I look forward to the opportunity to discuss how my qualifications align with the needs of Tower Research.

Thank you for considering my application. I am eager to be a part Tower Research's innovative and talented team. Please feel free to contact me at 8081499371 or via email at guptanaina704@gmail.com to arrange an interview.

Sincerely,

Naina Gupta
